1. Building and Detail Preparation

- Remove mold flash from Wall and Roof Sections and Details using a hobby knife and sandpaper (**Fig. 1a**). Make sure grooves in Wall and Roof Sections are free of mold debris. Do not remove Details from sprues at this time.
- Wash Wall and Roof Sections and Details in warm, soapy water using a mild detergent. Rinse and let dry.
- Details can be left on sprues (recommended) or removed for priming and painting. Remove using a hobby knife (or flush cutting shears) and sand off parting lines (**Fig. 1b**). Details may be easier to paint on sprue. It also makes identifying them easier during assembly.
- Be careful to not remove placement posts or installation tabs (**Fig. 1c**).

Test fit Details before gluing. When possible, insert placement post into hole and apply CA glue from underneath structure, or use a toothpick to apply a tiny amount of glue onto post and then insert into hole.

Tips and Techniques

Colors are your choice, but we recommend natural, earth-tone colors. Paint door and window trim the same color as the walls or a contrasting color.

Lighting

To reduce glare when lighting (light kit not included), paint interior walls and underside of roof a flat, earth-tone shade.

Painting Tips

Airbrush or Hand-brush Use enamel (solvent-based) or acrylic (water-soluble) flat finish paint.

Aerosol Use flat finish spray paint.

Weathering Techniques

Weathering Wash Add a realistic weathered look (formula follows). Lay building flat so wash spreads evenly. Using a paintbrush, dab on small amounts of Weathering Wash until desired look is achieved. Sponge off excess.

Formula: Mix 1-part acrylic paint (color suggestion: earth-tone shade), 12-parts rubbing alcohol, 8-parts water and 1 drop liquid dish soap.

Airbrush Spray thinned flat black paint lightly onto select areas (color suggestion: grimy black). Add more where discoloration occurs naturally (near windows, roof details, etc.).

Chalk Rub a dark color of pastel chalk on sandpaper to create chalk dust (color suggestion: gray, black, brown, etc.). Using a paintbrush, dab chalk dust where discoloration can occur.

Decals Age Decals by scoring and chipping with a hobby knife.
